

Randall Long - Systems Architecture Portfolio

This portfolio presents representative architectures derived from systems described in my resume history. The focus is on service boundaries, orchestration patterns, cloud modernization, data flow, and operational design.

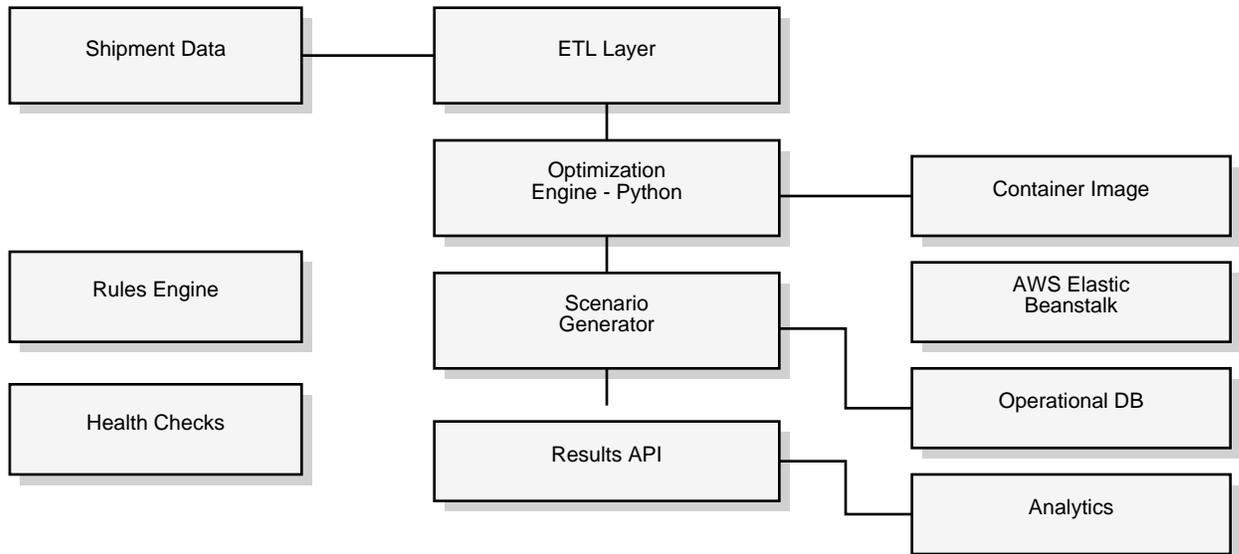

1. Mortgage Platform Architecture

Mortgage Platform Architecture - Orchestration and Service Coordination

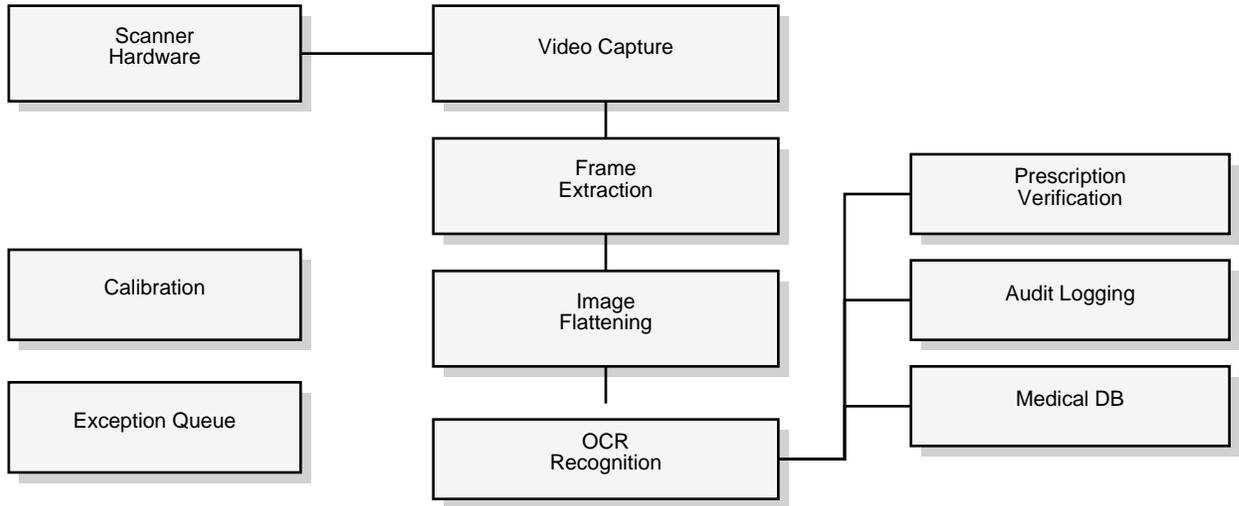

2. Logistics Optimization Architecture

Logistics Optimization Architecture - Data Processing and API Delivery

3. Medical Imaging Verification Pipeline

Medical Imaging Verification Architecture - Capture and Processing Pipeline

4. Cloud Modernization and Migration

Platform Modernization Architecture - Legacy to Cloud Migration
